So, it was strange that there were several high hills near Sutton Hoo. (1) In the 1930s, two people got interested in researching this place. One of them was Basil Brown. (2) He knew a lot about the past of East Anglia. The second person was Edith Perry. After the death of her husband, she became the owner of land and a house in Sutton Hoo. (3) In 1937 she invited Brown to spend 2 weeks in Sutton Hoo and to explore the mounds with the help of some workers. (4) So, they began digging. First, they found nothing. But the sound of the ground falling down into the mound was unusual. Brown understood that there must be an empty space lower in the mound. (5) A big team of specialists from London came to continue digging, and indeed, a huge, 27 metres long wooden ship was found in the mound. A man, probably a king, was buried in the ship. Reading. Task 4. HOW MUCH DO WE KNOW ABOUT SHAKESPEARE?

Задание: Read the text. For questions 1-5, choose the correct answer (a, b or c).

William Shakespeare (1564-1616) is the greatest writer who wrote in English. Also, he is the most popular author of all time. About 4 billion copies of his plays and poetry have been sold globally by 2025. Yet, we know very little about his life. Most facts that we know relate to his childhood and youth. There are very few documents about him when he was already a famous actor and playwright.

Tourists who visit his native city Stratford-upon-Avon can visit the house where Shakespeare was born. Also, they can see the building of the 16th-century school. Many researchers think that Shakespeare studied there when he was a boy. His father, John Shakespeare, was a wealthy man. He began as a maker of gloves and was successful. Then he was a member of the city government. William married very early, when he was 18. His wife, Anne Hathaway, was a widow and older than him by 8 years. They had three children – an elder daughter and twins – a girl and a boy.

The twins were born in 1585, and we have no information at all about Shakespeare from that year until 1592. In this year, he was already a well-known actor and playwright in London. What happened to him between 1585 and 1592? When did he leave his native city and come to London? How did he become an actor and when did he begin writing plays? Nobody knows. But researchers hope to find some new documents to answer these questions.

1. **4 billion copies of Shakespeare's books were sold:**
 - a. During his life
 - b. In 2025
 - c. During all the time since his first books were published
2. **We do not know a lot about:**
 - a. His adult life
 - b. Shakespeare as an actor
 - c. His childhood and youth
3. **What do we know about Shakespeare's school education?**
 - a. There was a school in Stratford, and he could study there
 - b. He went to school in his native city
 - c. The school was built when he left the city.
4. **Shakespeare's father was rich because:**
 - a. His son became a famous actor and writer
 - b. He was a successful glove-maker
 - c. He was in the city government

5. **Researchers hope to find more information on:**

- a. How Shakespeare became famous in London
- b. When he left Stratford-upon-Avon
- c. What happened to him between 1585 and 1592
